

# Professional English (Microsite Pop-Out)

Learners at The Linguaviva Centre can take this course in addition to General English 20 lessons or as an option of 5 lessons or 10 lessons. Professional English is aimed at those who want to live and work through English.

It focuses on CEFR linked learning outcomes, is project based with an integrated skills approach. The emphasis is on spoken production and interaction in a professional context.

- The Professional English course (5 or 10 lessons per week) is available at all major levels of the CEFR ( A,B and C).
- The 12 week syllabus for each course is packed with interesting digital materials, both Professional coursebook related and produced in house.
- The courses are extremely flexible to suit your calendar. Learners can start a course on any Monday of the year and take a Monday/Tuesday or Wednesday/Thursday option or both.
- Once they have taken the Linguaviva Placement Test online they will be given an individual Learning Plan which will explain in detail the outcomes they will cover on their course.
- All courses follow an integrated skills approach where learners can expect to make significant progress with speaking , listening, reading and writing in English with a major emphasis on spoken production and interaction.
- At Linguaviva, we recognise the importance of teaching pronunciation and our teachers explore sounds, stress, and the rhythm of English with our learners. We use real life professional contexts to teach English, helping the learners to explore their working environment by investigating situations likely to arise while travelling or working, to describe their experiences and events they take part in.
- Learners will work from the latest editions of the Business English Cambridge coursebooks at each level.

# Professional English (Microsite Pop-Out)

- Presentations are via our interactive class software and students will benefit for the ability to access digital supplementary materials and between class work both archived on Google Classroom and through the software for their coursebooks. As well as the carefully selected coursebook series at Linguaviva, we have devised Professional English materials which explore the contexts that our learners will experience while working in English. Because we feel that significant progress in English is paramount we have integrated into our course both progress testing and externally assessed certification. In the case of the Professional English courses, learners can prepare for the Business English Cambridge exam.\*

**The options above allow a learner to take an intensive course while still allowing them to take a full part in extra- curricular activities.**

***\*Learners must take a minimum of 8 weeks in order to register, prepare for and sit an external exam.***
